

**RATE MANUAL**  
**EFFECTIVE JANUARY 1, 2007**  
**LOUISIANA PATIENT'S COMPENSATION FUND**

**I. PCF PAYMENT SCHEDULE**

**New Enrollees:**

*Providers with Primary Insurance:* Payment must be made on or before the effective date of coverage. If payment is made after the effective date of the primary policy, the PCF effective **date** will be the date the insurance company/agent **received** the payment on behalf of the PCF. Proof of provider's payment may be requested.

*Self Insured's:* The effective date of coverage is the **date of receipt** by the PCF of the completed application, the appropriate surcharge payment and the security in the amount of \$125,000.00.

**Renewals:**

*Providers with Primary Insurance:* Payment must be made to the insurance company or agent NO LATER than **30** days after the expiration of the policy.

*Self Insured's:* The effective date of coverage is the date the PCF has **received** the completed application, appropriate surcharge payment and renewal information for the security. Payments need to be sent on or before the date of renewal.

**Tail Coverage:** Must be purchased from primary within **45** days of termination of policy.

**\*\*\*\*\*LATE PAYMENT BY THE HEALTHCARE PROVIDER WILL RESULT IN A GAP IN COVERAGE.\*\* and COULD RESULT IN DENIAL OF COVERAG BY THE PCF.\*\*\*\*\***

**RESPONSIBILITY OF THE INSURANCE COMPANY/AGENT**

Once payment is received by the insurance company/agent, the following is remitted to the PCF:

1. A certificate of insurance that includes the complete name and address of the HCP, specialty, license number, date of birth, dates of coverage, policy type, retro date (if applicable) and primary premium.
2. Appropriate surcharge payment. If other than what is found on the PCF rate sheet, an explanation is needed as to how it was calculated, such as part-time.

The insurance company/agent has **45** days from the date they receive the payment from a HCP to remit it to the PCF. If remitted past the 45 day period, an insurance company /agent will be charged a **5% penalty + accrued legal interest** from the 46<sup>th</sup> day until paid. Proof of the primary payment will be requested if a payment is remitted beyond time allowed.

Notices of **cancellations** must be received within 30 days of effective date for full refund back to date of cancellation. PCF does not accept cancellations directly from finance companies. **Refunds** will be made for the current policy only. Refunds are paid to the person or entity that paid the PCF surcharge.

## II. CLASSIFICATION PROCEDURE:

- A. For classification assignment purposes, the following phraseology is defined:
1. The term "**no surgery**" applies to general practitioners and specialists who do not perform obstetrical procedures or surgery (other than incision of boils and superficial abscesses or suturing of skin and superficial fascia) and who do not ordinarily assist in surgical procedures.
  2. The term "**minor surgery**" applies to general practitioners and specialists who perform minor surgery generally use local anesthesia.
  3. The term "**major surgery**" applies to general practitioners and specialists who perform major surgery or who assist in major surgery on their own or on other than their own patients. Tonsillectomies, adenoidectomies, abortions, dilation and curettement, laparoscopic procedures, normal obstetrical procedures and cesarean sections shall be considered major surgery.
- B. When two or more classes are applicable to a general practitioner or specialist, the rate for the **highest** paid class shall apply.
- C. Any general practitioner or specialist who would normally be assigned to a class having a code number followed by an asterisk (\*) shall be classified and rated as "**Physicians--no major surgery**", code 80534, if any of the following medical techniques or procedures are performed:
- a. **Acupuncture**--other than acupuncture anesthesia
  - b. **Cryosurgery** -- other than use on benign or pre-malignant dermatological lesions
  - c. **Lasers** -- used in therapy
  - d. **Shock therapy**
  - e. **Liposuction**
  - f. **Skin flaps with arterial blood supply** other than cancer therapy
  - g. **Any dermatological procedure done under general anesthesia**
  - h. **Epidural injections** – for pain management
- D. Any general practitioner or specialist who would normally be assigned to a classification having a code number followed by a cross-hatch (#) shall be classified and rated as "**Physicians --no major surgery**", code 80533, if such general practitioner or specialist performs any of the following medical techniques or procedures:
- a. **Catheterization** -- arterial, cardiac, central venous, or diagnostic, intraluminal angioplasty, occasional insertion of pulmonary wedge, recording catheters or temporary pace- makers, and umbilical cord catheterization for diagnostic purposes or for monitoring blood gases in newborns receiving oxygen.
  - b. **Needle biopsy** -- including lung, liver, kidney, and prostate.
  - c. **Radiopaque Dye Injections** into blood vessels, lymphatics, sinus tracts or fistulae (not applicable to Radiologist, Code 80280\*)
  - d. **Pneumatic and mechanical esophageal dilation** (not with bougie or olive)

- E. Locum Tenens Coverage:** The PCF requires a surcharge for Locum Tenens. The surcharge is prorated based on the class and specialty of the physician who is utilizing the Locum Tenen and the number of days worked. The PCF provides for a minimum of \$250.00 or whichever is higher. When a physician completes the indicated period of time listed on the certificate of insurance, and he elects to return at a later point, he will be required to pay an additional surcharge based on the number of days worked. However, an individual MD will not be required to pay more than the amount charged for the full-time annual PCF surcharge rate for the highest class used for locum tenens coverage for any 1 year period, commencing from the first date enrolled as a locum tenens
- F. Orthopedic Minor Surgery** includes outpatient procedures such as toe surgery, arthroscopic procedures, closed reductions, percutaneous pinning and other percutaneous procedures.
- G. Corporate Coverage:** For Corporate coverage, a certificate of insurance or corporate application if self-insure is **required**. It must contain the names of the providers eligible for enrollment (HCP specialties listed in our rate manual) that make up the Corporation or Partnership, or work for the corporation or partnership, so that coverage can be verified and to confirm that no additional surcharge is due. The PCF corporate application is on our web site. No certificate of enrollment will be issued if there is a failure to comply with this provision and coverage will not be established within this office or any claim filed against the corporation..).
- H. Nursing Home** applies only to a **licensed** “home” as defined in R.S. 40:2009.2. A nursing home may include both skilled nursing beds as well as other beds, in which case the number of each type of bed must be included on the application and the appropriate surcharge remitted. A Skilled nursing facility bed includes beds licensed or approved as such by the State and utilized for patients requiring either skilled nursing care or the supervision of skilled nursing care on a continuous and extended basis. Intermediate care requires lower degree of semi-skilled care/supervision due to less severe illnesses or conditions. The PCF Other class requires minimal nursing care and includes assisted living.
- I. Oral Surgeons: For the years 2006 and 2007 ONLY** -The maximum increase or decrease cannot exceed 15% of PCF surcharge due using prior surcharge rate of 39% of primary. (examples: if Oral Surgeon surcharge using 39% = \$5000 for 5th yr, surcharge would be  $\$5000 - 15\% = \$4250$ , not \$3279. If 5th yr using 39% calculation is \$2000, the PCF surcharge would be  $\$2000 + 15\% = \$2300$  not \$3279
- J. Other Class:** Those providers that are not specifically listed and are not physicians, the “other” classification may apply. The PCF surcharge is 87% of the underlying premium for \$100,000/\$300,000 coverage. The amount of the underlying premium MUST be provided with the PCF surcharge and application or certificate of insurance.

## NOTES:

(1) No charge will be made to cover such entity if all shareholders/partners and professional employees are enrolled and qualified with the PCF. Otherwise a charge of 20% of each class rate will be made for shareholders/partners and employees not enrolled & qualified in the PCF. A **separate Certificate of Insurance is required** that lists all enrolled health care providers in the Corporation/Partnership.

(2) These rates apply not only to employees of individual providers, but also to employees or partnerships, corporations or professional associations practicing medicine. They apply per employee regardless of the number of partners.

(3) Any of the above special surcharge classes must be paid in addition to surcharges applicable for employing provider.

(4) The **\$250 minimum** charge is a POLICY-WRITING MINIMUM for the LAPCF, and may not be pro-rated.

- B. DROP DOWN CHARGE:** A physician or surgeon reducing classification will pay a one-time additional surcharge equal to the difference between the "tail" (reporting endorsement) charge for the higher classification and the tail charge for the lower classification. It will be based on the provider's maturity year at the time of the change. This additional surcharge may be waived if the provider has 10 or more consecutive years with the PCF.
- C. PART-TIME DISCOUNTS:** A physician or surgeon who is employed full-time by a hospital or clinic and has paid a full surcharge for his classification. And who is in addition in private practice may be eligible for a rate credit on the surcharge for his private practice, as follows \* :

35 hrs. practice/month or less	75% Credit
65 hrs. practice/month or less	50% Credit
85 hrs. practice/month or less	25% Credit
More than 85 hrs./month	No Credit

*\* Based on 40 Hr work week*

At the discretion of the Fund, these percentage credits may also be applied to physicians practicing on a part-time basis.

- D.** A physician or surgeon with a rate class in their primary insurance company that is different from the rate class shown in these pages for the Patients' Compensation Fund will in all instances pay the surcharge based on the PCF rate classes.

**E. Intern and Resident Rating Procedures:**

General Medicine	Rate Class 3
General Surgery	Rate Class 5
Transitional (Med/Surg)	Rate Class 4
Pediatrics	Rate Class 1
Psychiatry	Rate Class 1
Other	PCF Rate class applicable to specialty

Interns: 33% of indicated surcharge for applicable class

Residents: 66% of indicated surcharge for applicable class

**F. Retiring, Deceased or Disabled Physicians:** "Tail" coverage (Extended Reporting Endorsement) surcharges for these classes shall be considered as "included" in their last surcharge payment, and no additional charge shall be required for this coverage if they have been in the PCF for **10** consecutive years. However, a disabled physician who subsequently returns to practice must pay all applicable surcharges, just as any other active physician. This waiver also applies to the "step down" charge used for physicians who reduce their PCF classification, if such reduction is the result of a permanent disability or illness which allows the provider to continue to practice medicine, but requires a reduction in the specialty class (for example, dropping to a "no surgery" classification after previously qualifying as a surgeon or surgical assistant), the "step down" charge shall be considered "included" in the last surcharge paid at the higher classification.

**G.** Classes which do not fall within the range of these pages shall be rated at the discretion of the Fund. In most cases, such rates will follow the Insurance Service Office procedures.

**H. ALTERNATE EMERGENCY PHYSICIAN RATING BASIS:**

This rating basis is an option available to any group or individual Emergency Medicine practice whose underlying coverage is rated on a "per patient visit" basis (or, for self-insureds, those whose hospital contracts are maintained on a "per patient visit" basis). To qualify for this basis, providers must be able to supply the Fund with the means of verifying the number of patient visits recorded at year end. Such verification can take the form of premium audits from underlying policies, copies of verifications for hospital contracts, or any other form of verification acceptable to the Fund. Surcharges paid to the Fund will be adjusted at the end of each policy year based on verified numbers submitted. (PLEASE NOTE: This rating basis is the only alternative available to rating Emergency Medicine on a per-physician basis. Under no circumstances will any ER group or practice be rated as per the "All Other" rating procedures.)

Rates per patient visit are as follows. At the discretion of the Fund, where it is not possible to sort patient visits per physicians' individual retro-active dates, an average Claims-Made rate may be available as shown. Use of the average rate requires a written request to the Fund. Use of an overall retroactive date per group will not be allowed.

## **LA PATIENT'S COMPENSATION FUND RATE PAGES**

### **SUPPLEMENT: EXPERIENCE RATING**

#### **1. General:**

Effective 7-1-93, the LA PCF initiated an experience-rating program for physician and hospital classes. The intent of the plan is to apportion a greater percentage of needed premium increases to those providers who are generated a greater-than-expected number of losses. This program replaces the 10% loss-free credit program previously available. That credit is currently not available.

While the provisions for application to the physician and hospital classes are slightly different, both operate under the following general parameters:

- A.** Only those providers with two or more eligible losses in the five-year rating period, valued at \$2 or more each, will be affected. Not every provider meeting the criteria for rating shall earn a debit: a number of providers whose total losses fall below the indicated thresholds will simply pay manual premiums, like any other provider.
- B.** Losses subject to inclusion are as follows:
  - 1. Any closed, paid loss (valued at \$2 or more) with a report date of 5 years prior to the renewal date; AND
  - 2. Any open, reserved loss valued at \$2 or more, regardless of original report date
  - 3. The "All Other" class will be experience rated under PH1 unless the providers included are classified at a higher level.
- C.** Losses used in the rating plan will be valued as of 90 days prior to the expiration of the provider's coverage. Any changes in loss value after that date will be included in the next year's evaluation.
- D.** Because the majority of the required information is only readily available to the Fund (rather than the providers and primary carriers), Fund personnel will calculate all modifiers in our offices, and send appropriate notice to the providers and carriers in our renewal billings. However, each affected provider will be given a copy of the worksheet used in the calculation, so that they may review the loss data for accuracy.
- E.** Penalties are required in addition to the indicated surcharge increase shown in the attached rating pages.

## 2. Physician Class Program Specifics:

- A.** The physician-class modifiers rely on specific ranges of losses. These vary by PH-class. Those eligible providers with total limited losses in the five-year period which fall within the stated ranges shown below will earn the indicated debit modifier.
- B.** Modifiers are to be applied to the indicated renewal surcharge. (For example, a provider paying \$10,000 in normal surcharges who earns a 20% penalty will pay a total of \$12,000—i.e., \$10,000 x 1.20.)
- C.** The indicated modifier shall be re-evaluated at each subsequent renewal. It is anticipated that providers will come in and out of the program as loss results change.
- D.** The maximum penalty to any provider is 50%.
- E.** Indicated modifiers and loss limitations by class:

### **3. Hospital Program Specifics**

- A.** Hospital modifiers are individually calculated based upon the provider's 5-year loss ratio with the Fund: that is, the relationship of surcharges paid in to losses paid out and reserved within the same five-year period. The losses shall be subject to the limitations shown below. The indicated modifier shall be the debit (if any) indicated by the loss ratio (i.e., any portion over 100%), subject to the maximum penalty of 50%.
- B.** MAXIMUM SINGLE LOSS PROVISIONS: Those hospitals who have paid a cumulative total of less than \$300,000 into the Fund in the past five policy years shall have each individual loss limited to \$300,000 for experience rating. Those hospitals which have paid in a cumulative total of \$300,000 or more over the past five policy years shall have each individual loss limited to \$500,000 for experience rating.
- C.** No provider shall pay more than 50% in penalty.
- D.** As in the physician classes, losses shall be valued as of 90 days prior to renewal of coverage. Any changes in value after that date shall be considered in the following years' rating.
- E.** Each provider shall be supplied with a copy of their worksheet, so that they may review losses and surcharge records for accuracy.
- F.** In the event of a complete change of corporate ownership, the Fund may, at its discretion, amend the experience rating basis of the new entity to unity pending development of data by the new entity. Each such entity desiring such a change must make individual submission to the Fund. The new entities shall begin new experience ratings after completing one policy year under the new ownership.
